1. Purpose and Applicability

Mylnhurst Preparatory School and Nursery aims to treat all pupils, staff, prospective parents and other members of the school community equally, and wherever possible, take reasonable steps to avoid placing anyone at a substantial disadvantage.

The Equality Act 2010 imposes duties on schools not to discriminate against, or treat less favourably, disabled pupils or prospective pupils in the provision of educational services. This policy sets out the school's commitment to ensuring accessibility to education for pupils with additional needs, both in terms of education itself but also the physical access of our school. This policy is valid for three years but will be reviewed annually.

Mylnhurst recognises its duties under the Equality Act 2010 and adopts a positive approach to making the school more accessible in terms of:

- Admissions
- The curriculum, both the taught and the wider curriculum
- Associated services, including after-school care and extra-curricular activities
- Behaviour and discipline policies
- Premises

The Head and the Board of Directors are responsible for coordinating the implementation of the Plan. Risk assessments and procedures are in place to include the assessment of the individual needs of disabled pupils, and a personal emergency evacuation plan is agreed with pupils and parents when deemed necessary and appropriate. This plan will be reviewed annually with a formal update scheduled no later than July 2023.

### 3. Access to the Curriculum

The school takes all reasonable steps to ensure that its curriculum is as accessible as possible to those pupils with additional needs. This may include teaching and learning, and a wider curriculum, such as participation in after-school clubs and visits. The SLT will regularly review its policy towards Inclusion and will update the school, where appropriate, on any changes to policy or related guidance. Curriculum access is addressed on a case-by-case basis. The school encourages the parents of those for whom special curricular access arrangements may be necessary to visit the school at the earliest opportunity to discuss how the prospective pupil's needs may be best met, both during the application process and also after admission. It is also the case that the school is aware of occasional access needs or restrictions on movement. This is provided for by an assessment of need by the DSL (via a PEEP). Lesson and facilities access are then adjusted accordingly. This discussion leads to an evaluation based around the following targets:

#### 4. Access to Information

It is our aim to ensure that the transition of pupils with a disability to different sites, , is respected and planned for. Review meetings, parents' evenings and meetings with external agencies (as required) will be held to improve the flow and delivery of information to pupils with a disability, their parents and those involved in supporting them. This may involve planning on how to make written information accessible to disabled pupils within a reasonable timeframe, including handouts, timetables, textbooks and information about events.

## 5. Access to the Physical School Environment

Mylnhurst firmly believes that the main emphasis of its accessibility planning should be on access to the curriculum and education. We recognise that alterations to the premises are likely in order to enable disabled pupils to take advantage of education, facilities and the services the school covers. The school encourages the parents of those for whom special access arrangements may be necessary to visit the school at the earliest opportunity to discuss how the prospective pupils' needs may be best met both during the application process and also after admission. Any potential alterations will be judged against the test of reasonableness, as set out in the Equality Act 2010.
